Mr. Minh commented:
- Writing a curriculum with differentiation, writing a curriculum should not be too one-sided, it should have an overview. There are many perspectives, new definitions, and new challenges that need to be updated.
- An open perspective needs to be included in the curriculum.
- Reference documents should only be in 03 groups:
    - From the projects of the foundation.
    - From Founders Blog: for example: https://vitalik.eth.limo/ , [PoS](#)
    - Books should be updated from 2023

Progress update:
Chapter 4: Mr. Thong updates:
- Summarizing a long document, into a document of about 20 pages. Updates are included as reference documents.
- Expected date **15/1**.
- Need documentation on Cardano's PoS from an academic perspective.
- History needs to be described in the textbook.

Chapter 2: Mr. Chung updated:
- 50% completed,
- Mr. Minh commented: We should take real examples for the Token section from 03 platforms: Bitcoin, Ethereum and Cardano.
- January 15, version 1 is available.
- Push the draft to the public folder.

Chapter 3: Mr.Hieu updated:
- Part 3.1 has completed version 1

-   Part 3.2 was written by Mr. Minh.
-   Part 3.3 will be completed within the week.
-   Section 3.4 **15/1** finished version 1.

Chapter 1: Mr. Du updated:

Agree that each Chapter should not exceed 70 pages.
Instruction in MS4 should be taught by members of the curriculum development team
