[**[1200167] Open source dynamic assets (Token/NFT) generator (CIP68)**](#)

Need:
 The architecture diagram
Review design
Need to design diagram
Expected:
- UI/UX

- October 15: FE/BE completed
- November 15: completed SC

Priority is given to functions that operate stably, => beautifully and smoothly

☐ **Dung/Khanh redraw the workflow for functions -> estimate time and cost.**
☐ Son/Khanh will analyze and present the SC Mr Hieu sent
☐ Dung and Khanh complete UI/UX
☑ ~~Tien will go to Application Architecture~~

Aug 26, 2024 9:00 PM | Team Review Meeting

Attendees: Thanh, Khanh, Son, Mr Tien, Mr Hieu

Product requirement:

Github repository:

[1200167] Open source dynamic assets (Token/NFT) generator (CIP68)

Need:

       Review survey form:
       SC analysis assignment- https://github.com/nikhils9/cip68-nfts
       Take attendance/assign work

            -

- ☐ Son will analyze and present the SC Mr Hieu sent
- ☐ Dung and Khanh complete UI/UX
- ☐ Tien will go to Application Architecture

Aug 12, 2024 8:30 PM | Team Review Meeting

Attendees: Thanh, Khanh, Son, Mr Tien, Mr Hieu

Product requirement:

Github repository:

[1200167] Open source dynamic assets (Token/NFT) generator (CIP68)

Need:
- Summary of survey.

- UI/UX design:
  - Done after the Survey results are available.
  - Language: English.

What does Survey need:

-

- ☑ ~~Make a video explaining CIP68 to the community → Tien~~
- ☑ ~~Create Survey, send survey → Effect~~
- ☐ Survey statistics ⇒ providing "innovative, groundbreaking" information for the project → Effective
- ☐ Design for the project - Product requirements. (**User management, Create, update, burnt...**) → Progress/Efficiency
- ☐ Design UI/UX by design. —> Dung
- ☐ Front-end: Dung, (**User management, Create, update, burnt...**)
- ☐ Back-end/Off-chain/On-chain: Khanh is in charge of BE, Son is in charge of Offchain/Onchain (**User management, Create, update, burnt...**)
- ☐ Write down the time spent on each task

Aug 5, 2024 8:30 PM | Team Review Meeting

Attendees: Thanh, Khanh, Son, Dung, Mr Tien, Mr Hieu

Product requirement:

[1200167] Open source dynamic assets (Token/NFT) generator (CIP68)

Need:
- Conduct surveys:
  - Comments:
    - Need to make the community understand about CIP68 before doing the survey
    - Sending Survey to the community => the right audience needs to create tokens/NFTs

  Dung commented:
    - Has the function to build metadata
    - Mint many NFTs together

  Khanh: need to write complete instructions
    - User manual
    - How to use the code?
- UI/UX design:
  - Done after the Survey results are available.
  - Language: English.

  What does survey need:
    - Survey for 1 week.
    - Name, email, phone,
    - Basic functions:(**User management, Create, update, burnt...**)
    - Desired functionality: (up load metadata - json)
    -

☐ Make a video explaining CIP68 to the community → Tien

☐ Create Survey, send survey → Effect

☐ Survey statistics ⇒ providing "innovative, groundbreaking" information for the project → Effective

☐ Design for the project - Product requirements. (**User management, Create, update, burnt...**) → Progress/Efficiency

☐ Design UI/UX by design. —> Dung

☐ Front-end: Dung, (**User management, Create, update, burnt...**)

☐ Back-end: Dung, Son (**User management, Create, update, burnt...**)

Jul 22, 2024 8:30 PM | Team Review Meeting

Attendees: Thanh, Khanh, Son, Dung, Mr Tien, Mr Hieu

[1200167] Open source dynamic assets (Token/NFT) generator (CIP68)

Need:
- Project implementation meeting:
- Should API design between FE and BE.
- Back-end dev has API support: how to manage wallet?TTL
- Manage API users.

☐ Get the job
☐ Regular meeting schedule: 8:30 p.m. every Friday.
☐ Old NFT CIP68 mint program
☐ Prepare preliminary architectural design, please give additional comments
☐ Guys: look at the job -> accept the job.
